About Me

Fullstack Developer with over 5 years of experience building scalable and high-performance web applications. Specialized in the React/Next.js ecosystem and the integration of Generative AI technologies (LLMs) to create intelligent, user-centric digital solutions. Experienced in managing the entire software development lifecycle, from UI/UX design and frontend architecture to cloud infrastructure and server management. Proven ability to deliver modern, efficient, and maintainable applications while collaborating effectively across cross-functional teams.

Technical Skills

- Frontend Development:** React.js, Next.js, Vue.js, TypeScript, JavaScript (ES6+), Flutter (Dart), Responsive Web Development, UI/UX Implementation, Performance Optimization, State Management.
- AI & Generative AI:** LLM Integration (Meta Llama, OpenAI APIs), GROQ, Retrieval-Augmented Generation (RAG), LangGraph, Prompt Engineering, VectorDB, AI-Powered Features, AI Workflow Automation, Generative AI Application Development.
- Backend Development:** Node.js (Express), PHP (Laravel, CodeIgniter), Python, REST API Development, Full-Stack Application Development, Database Integration.
- Databases:** MySQL, PostgreSQL, SQLite, MongoDB, Redis, Vector Databases
- Cloud & DevOps:** Cloud Server Architecture, VPS Management, Linux Server Administration, Application Deployment, Git Version Control, CI/CD Fundamentals, Hosting & Infrastructure Management.
- Geospatial & Mapping Technologies:** Google Maps API, OpenStreetMap, Leaflet.js, Geospatial Web Applications.
- Software Engineering:** System Design, Software Architecture, Agile Development, Prototyping, End-to-End Software Development Lifecycle (SDLC), Technical Documentation.
- Tools & Collaboration:** Git, GitHub, Visual Studio Code, Visual Studio Live Share, Postman, Figma, Cross-Functional Team Collaboration.

Professional Experiences

❖ Fullstack Developer

Paideia Educational Solutions | Indonesia

Fulltime

September 2022 – Present

Fullstack Skills :

- Architected and developed high-performance backend microservices using FastAPI and Falcon, serving scalable RESTful APIs for real-time educational analytics.
- Designed and optimized relational database schemas and data modeling using PonyORM, improving query execution speeds, indexing, and overall data integrity.
- Managed database interactions and data modeling using PonyORM, optimizing query execution speeds and overall data consistency.
- Integrated modern **React/Next.js** dynamic frontend interfaces seamlessly with Python microservices, improving end-to-end user experience.
- Built a custom **PDF template generator** engine on the backend, allowing dynamic layout building and automated document generation for complex educational reports.

Frontend Skills :

- Designed and built scalable frontend architectures using React.js, Next.js, and TypeScript for a large-scale edtech platform serving teachers, students, and administrators.
- Established UI/UX standards using Shadcn UI and Tailwind CSS, improving design consistency, accessibility, and platform usability.
- Collaborated closely with cross-functional teams to streamline platform workflows and increase overall user retention.

Tech Stack: Python (FastAPI, Falcon, PonyORM), RabbitMQ, React.js, Next.js, TypeScript, REST APIs, Shadcn UI, Git

❖ Fullstack Developer

Fulltime

PT Digital Agensi Nusantara | Indonesia

September 2021 – September 2022

- Independently managed the complete software development lifecycle, from requirements gathering and system design to deployment and maintenance.
- Built and maintained web applications for various business sectors, focusing on scalability, performance, and reliability.
- Designed and deployed cloud-based infrastructures and VPS environments for client applications.
- Developed frontend interfaces, backend APIs, database integrations, and deployment pipelines for multiple projects.
- Worked directly with stakeholders to transform business requirements into technical solutions.

Tech Stack: PHP (Laravel), Node.js (Express), JavaScript, TypeScript, MySQL, Linux, VPS, Git

❖ Fullstack Developer

Fulltime

PT Garuda Visi Nusantara | South Tangerang, Indonesia

June 2020 – September 2021

- Developed geospatial web applications utilizing mapping technologies to support location-based business operations.
- Implemented interactive mapping solutions using Google Maps API, OpenStreetMap, and Leaflet.
- Collaborated within a cross-functional development team using Git-based workflows and modern development practices.
- Contributed to frontend, backend, and system integration tasks across multiple projects.

Tech Stack: PHP, Laravel, CodeIgniter, Node.js, JavaScript, PHP, Google Maps API, OpenStreetMap, Leaflet, GitHub

❖ Web Developer Intern

Fulltime

PT Trinindya | Jakarta, Indonesia

March 2019 – May 2019

- Assisted in developing and maintaining full-stack web applications using PHP frameworks.
- Built and customized business application modules using Laravel, CodeIgniter, and CodeIgniter HMVC.
- Performed data entry, data validation, and database management tasks to ensure data accuracy and consistency.
- Participated in debugging, feature implementation, and database integration activities.
- Collaborated with senior developers to test, deploy, and maintain web application features.

Tech Stack: PHP, Laravel, CodeIgniter, MySQL, Excel

Education

❖ Bachelor's Degree in Information Systems

Universitas Raharja | Tangerang, Indonesia

2023 – 2027

- Concentration in Information Systems Management.
- Focused on IT governance, business process management, information systems strategy, and digital transformation.
- Developed knowledge in software development, database systems, project management, and enterprise information systems.

❖ Multimedia Vocational High School

SMKN 5 Kota Tangerang | Tangerang, Indonesia

2018 – 2020

- Studied multimedia production, graphic design, web development fundamentals, and digital content creation.
- Built foundational skills in UI design, web technologies, and creative digital media.
- Developed knowledge in software development, database systems, project management, and enterprise information systems.

Certifications & Achievements

- ❖ **Meta Llama Hackathon 2025 — Top 50 Finalist (Rank #12)**
Hacktiv8 x meta llama | Indonesia November 2025
 - Ranked 12th nationally and placed among the Top 50 participants.
 - Developed AI-powered solutions utilizing Meta Llama Large Language Models (LLMs).
 - Credential ID: 51c7a339-a471-496f-a9aa-43fce73bfa9a
- ❖ **Hackathon IMPHEN 2025 — Participant Recognition**
IMPHEN | Indonesia December 2025
 - Participated in developing innovative AI solutions focused on Large Language Models (LLMs) and Generative AI technologies.
- ❖ **Machine Learning Workshop Certificate**
Universitas Raharja | Indonesia April 2025
 - Completed training covering Machine Learning fundamentals, predictive modeling, and AI applications.
- ❖ **EF SET English Certificate (B2 Upper Intermediate)**
EF Standard English Test (EF SET) | International July 2024
 - Achieved a score of 53/100.
 - Certified English proficiency at B2 Upper Intermediate level.
- ❖ **TOEFL Certificate (RCEP 184)**
Universitas Raharja | Indonesia April 2026
 - Demonstrated English language proficiency through the RCEP 184 TOEFL assessment.
 - Credential ID: 7416/RCEP/RU/IV/2026
 - Valid through December 2036.
- ❖ **Hackathon Inarisk BNPB 2021 — 3rd Place Winner**
National Disaster Management Agency (BNPB) | Indonesia October 2021
 - Awarded 3rd place in the Mobile Apps Competition.
 - Developed a mobile application focused on disaster risk management.
 - Certificate ID: 461/BNPB/D-I/SS.03.01/10/2021
- ❖ **Tangerang City Skills Competition (LKS) — 2nd Place**
Web Design & Development Category | Indonesia January 2020
 - Awarded 2nd place in the city-level vocational skills competition.
 - Demonstrated proficiency in web design, frontend development, and web technologies.

Projects

- ❖ **Documind - AI & LLM Projects** Personal Project
AI-Powered Document Management & Generation Platform - hacktiv8 hackathon November 2025
 - Built a SaaS platform for document management, AI-assisted document generation, and intelligent document workflows.
 - Implemented Generative AI features using Large Language Models (LLMs) for document creation, editing, and

research assistance.

- Developed as part of the Meta Llama Hackathon 2025 project.

Tech Stack: Next.js, TypeScript, Python, AI/LLM Integration, RAG, LangGraph, Groq, Rest API.

❖ **Guru Kreator Enterprise - Multi-Tenant Learning Management System (LMS)** On Going
Paideia Educational Solutions September 2022 – Present

- Contributed to a large-scale SaaS learning management platform supporting educational institutions.
- Developed reporting systems, curriculum management modules, and AI-powered lesson plan generation.
- Implemented scalable frontend architecture and state management.

Tech Stack: [React.js](#), Vite, Turbo, Microfrontend, TypeScript, Redux, REST API.

❖ **WhatsApp.online** Personal Project
CRM & WhatsApp Business SaaS Platform 2026

- Designed and developed a CRM platform focused on customer communication and WhatsApp-based business workflows.
- Built WhatsApp Gateway integrations and automation features.

Tech Stack: Node.js, Express.js, React.js, WhatsApp API

❖ **FMS ([MediaBerbagi.com](#)) - Multi-Tenant Crowdfunding SaaS Platform** Fulltime
PT Digital Agensi Nusantara September 2021 – September 2022

- Developed a crowdfunding platform supporting multiple organizations and fundraising campaigns.
- Implemented multi-tenant architecture, payment workflows, campaign management, and administrative dashboards.

Tech Stack: Laravel, MySQL, [Vue.js](#), Payment Gateway, VPS.

❖ **Teguh Tangguh** Personal Project
Disaster Risk Management Mobile Application - Inarisk Hackathon October 2021

- Developed a mobile application focused on disaster preparedness and risk management.
- Awarded 3rd Place in the Inarisk BNPB National Hackathon 2021.

Tech Stack: Flutter, Unity, C#, Dart, Mobile Development, GIS Integration.

❖ **Geospatial Information System** Fulltime
PT Garuda Visi Nusantara June 2020 – September 2021

- Developed interactive geospatial web applications using mapping technologies.
- Integrated Google Maps API, OpenStreetMap, and Leaflet for location-based services.

Tech Stack: Laravel, Vue, JavaScript, PHP, Google Maps API, OpenStreetMap, Leaflet.

❖ **Government MSME Platform (Tabe Kalteng)** Freelance
Provincial Government Digital UMKM Platform 2022

- Developed frontend features for a government platform supporting MSMEs and digital business services.
- Implemented responsive interfaces and state management architecture.

Tech Stack: Typescript, Javascript. React.js, Redux, Rest API.

❖ **Content & Community Platforms** Freelance
2022-2023

Developed and maintained multiple content-driven platforms, news portals, forums, and community websites

- Banua.info – News & article portal - 2022
- Occhiolism.net – Articles & discussion forum - 2023
- LantingLiterasi.com – Articles & community platform - 2023
- Huniannyaman.id – Property content platform - 2023
- LuxmelDigital.com – Business content platform - 2023

Tech Stack: PHP, Javascript, Laravel, Next.js, MySQL.

❖ **Crowdfunding Platforms**

Freelance
2020 - 2024

Developed and maintained donation, fundraising, crowdfunding, and nonprofit management platforms serving charitable organizations and foundations across Indonesia.

- Baitulmaal Muamalat ([BMM.or.id](#)) - 2023 - 2024
- MDIN Microsite Bank Muamalat ([MDIN.BMM.or.id](#))k - 2024
- Merawat Indonesia ([MerawatIndonesia.com](#)) - 2020
- Berkah Berjamaah ([BerkahBerjamaah.com](#)) - 2023
- Itqan Peduli ([ItqanPeduli.com](#)) - 2021
- Amazing Sedekah (AmazingSedekah.com) - 2021
- BMBU Crowdfunding (KebaikanKecil.com) - 2023
- LAZ DKD - 2021
- Lazismu DKI Jakarta - 2021
- Lazismu Jawa Barat - 2021
- LAZNAS Al-Irsyad - 2021

Tech Stack: Laravel, Vue.js, PHP, MySQL, REST API.

❖ **Additional Projects**

Freelance

- Yukasir POS System - 2026
- Java Desktop POS Application (NetBeans) - 2025
- NeedYourHug (Indonesia 1000 Startup Digital Program) - 2021
- KMS Kota Minyak Knowledge Management System - 2019
- Library Management System - 2019
- IDCloudKu Hosting Platform (HTML/CSS Frontend Development) - 2025

Tech Stack: Laravel, Vue.js, CodeIgniter, HTML, CSS, JavaScript,Java.

Career Highlights

- 5+ years of professional software development experience
- Built 20+ production applications across SaaS, AI, LMS, GIS, CRM, and Crowdfunding domains
- Top 50 Meta Llama Hackathon 2025 (Rank #12)
- 3rd Place BNPB Inarisk National Hackathon
- Specialized in React, Next.js, TypeScript, and Generative AI integration

Thanks.
